Ms. MADELEN ATILLO

Human Resource Director
ABC Company Philippines
N. Bacalso Avenue, Cebu City

Dear Ms. Atillo:

In my pursuit of new creative endeavors, I was excited to find the Front-End Web Developer opportunity with the ABC Company Philippines. As someone who persevered in the IT Field and front end development, I believe that I can bring valuable contribution to the company.

In my time as a student, I have led multiple projects with multiple people. I have been the leader of about four projects that involved both front end and back-end development. It has been a huge development for my experience to work in multiple diverse elements for each project scenario and be able to showcase projects that differ from each other. I take inspiration for my project from multiple sources that I found online from Stack Overflow and GitHub. My philosophy is that introducing fresh perspectives and new techniques allows for an open and creative environment. I am confident that my experience, skills, and ability will be a great addition to the company's Front-End Web development team.

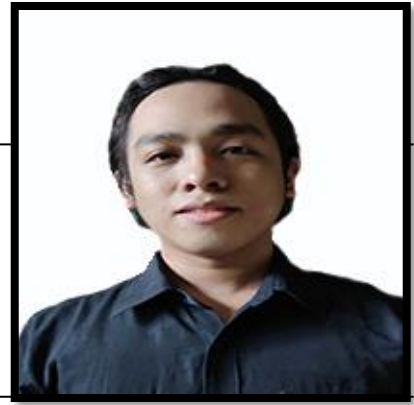

For a greater presentation of my background and qualifications, please review my attached resume. I am eager to further speak with you about the opportunity to be a part of the Front-End web developers' team of ABC Company Philippines and greatly appreciate your consideration.

Respectfully yours,

Mr. RIEL JASPER C. ABANGAN
